PERSONAL STATEMENT

As an early career web developer proficient in Linux, JavaScript, React, Python, HTML, and CSS as well as its frameworks like Bootstrap, I'm passionate about crafting innovative digital experiences. With a strong foundation in both front-end and back-end technologies, I approach every project with creativity and precision. My expertise in Linux ensures scalability and security, while my commitment to continuous learning keeps me at the forefront of industry trends. I thrive in collaborative environments, leveraging diverse perspectives to drive impactful solutions. Eager to contribute my skills and enthusiasm to projects that push boundaries and make a positive impact, I'm dedicated to delivering high-quality results that exceed expectations.

KEY SKILLS

- Extensive experience in Linux, Python, HTML, CSS, JavaScript, Bootstrap and React
- Excellent track-record of hitting targets – 100% pass rate in all Generation programme assessments, demonstrating troubleshooting and operational skills
- Dedicated to self-improvement and learning new skills
- Hard-working team-player, in work and personal life (Team Lead at Generation Ghana Web Developer Program)
- Empathetic and proficient at client communication in pressured environments, developed through several years of working in retail
- Confident with working independently and solving problem

WORKING EXPERIENCE

- Teaching and Research Assistant - Kwame Nkrumah University of Science and Technology (September 2019- 2020).

I worked as a National Service Person whose duties included organizing tutorial sessions for undergraduate students for more than 500 first year students, aiding undergraduate students (final year students) in their undergraduate thesis and projects. I also assisted my immediate supervisor and colleagues in research related tasks.

- Intern (Risk Management Department)

First Atlantic Bank –Headquarters, Accra (June 2017-July 2017)

I worked as part of a team to anticipate and fulfill customer needs to their satisfaction as well as checking the risk management of other branches in the country. My duties also included checking paid advertisements of the bank in newspapers and social media. I gained effective communications as well as problem-solving skills.

- GENERATION WEB DEVELOPER PROGRAM (April – July, 2024)

As a student and Team Lead at Generation Ghana Web Developer Program, my duties included meeting deadlines and organizing tutorials as well as recovery sessions for members of my team.

I built skills and mindsets which include growth mindset, client focus, team work, task management, persistence, problem-solving and collaboration.

Also, I gained technical skills such as Linux and its functions as an operating system, Python, HTML, CSS, JavaScript, Bootstrap, React.js and version control software: Git.

PROJECTS BUILT

- Building a Task Planner App using Bootstrap and JavaScript
- A responsive website named Clawsome used for displaying information on pets.
- A functional Event Planning website for booking vendors and rentals for users.

EDUCATION AND CERTIFICATIONS

- Generation Ghana
Web Development Program Cohort 1

(April – July 2024)

- Kwame Nkrumah University of Science and Technology

Bsc. Mathematics

(Sept 2015 - June 2019)

- Kpando Senior High School

West African Senior Secondary Certificate Examinations (Wassce)

(2011-2014)

- Victory Presbyterian Church School

Basic Education Certificate Examinations (Bece) (2011)

RESEARCH WORKS

- Undergraduate Thesis: “Mathematical Modelling Of Rlc Circuit”

Supervisor: Dr. Benedict Barnes Co-Authors: Benjamin Botwe and Emmanuel Mensah

- Senior Year Group project on Topology: Deriving the General formula for the second 12th Concept of Cantor set extension

PERSONAL INTEREST

- Music

I immerse myself in music, finding solace and inspiration in melodies. I have been playing the guitar for a few years now and it has been a great refresher for me whenever I am stressed.

- Art

I enjoy crafting intricate cartoons, capturing moments through photography, or designing captivating logos, my passion for art fuels a continuous exploration of beauty, meaning, and imagination.

- Sports

I am actively involved in personal fitness by engaging in cardio and jogging exercises which keeps my body fit and strong. It also gives me a clear mind to work effectively each day.
